

RECOVERY SUPPORT SERVICES – ACCESS TO RECOVERY

Vouchers for recovery support services may be issued to clients following assessment and enrollment into a PR+ level of care.

Recovery Support Limit – Initial authorization per client: **\$1,000** per treatment episode

Extended Residential Support: **\$400** per client per treatment episode.

Recovery support vouchers will be generated by the clinical treatment agency, based upon the client's informed choice of provider. In the event the client will be receiving services from multiple providers of recovery supports, separate vouchers will be issued for each service. The amount of service the client is authorized to receive will be identified on the recovery support voucher. **Additional recovery supports may be requested through the Division of Alcohol and Drug Abuse Clinical Review Unit.** Prior to requesting additional recovery supports, staff of the recovery support agency and the clinical treatment agency should jointly make a determination as to the level of additional services needed, based on the client's progress in treatment. The request for additional recovery support services will be submitted to the Division of Alcohol and Drug Abuse by the clinical treatment provider.

The voucher represents a commitment on the part of the State of Missouri, Division of Alcohol and Drug Abuse, to pay for services while funding is available and the client remains eligible. If at any point in the fiscal year funds are exhausted, all subsidies end for that year without regard to the existence of vouchers that have not expired.
